Summer Sounds Lakeside Vitznau – Reto Burrell in Concert

The "Swiss Tom Petty" has been enriching the Swiss music scene for over 20 years with his very own, timeless and versatile Americana style, consisting of rock, pop, country, folk and blues.

Great guitar licks add a lot of flavour to his sound, while the infectious melodies feel as enjoyable as a warm summer evening. His lyrics are sometimes sweet, often bittersweet, but always straight from the heart and get to the heart of the emotions that life serves up to us. The versatile Lucerne native is also a gifted live musician and charismatic entertainer who lets the audience share in his stories and captivates them with a great deal of sympathy, humour and authenticity.
