HOLY SHINE

Last winter, Lucerne artists made the film HEILIGER SCHEIN - a satirical Christmas musical film with talented primary school pupils from all over Central Switzerland as well as adult professional and amateur actors. The film takes a humorous and critical look at how quickly things are distorted in social and public media. Images are taken out of context. Thousands of people immediately make judgments about stories they don't actually know anything about. HEILIGER SCHEIN addresses this urgent topic in a way that makes both children and adults laugh, but also makes them think. The movie will be screened in Swiss dialect. A small aperitif will be served afterwards.
