Finnish concert organist Risto Valtasaari has put together a varied programme containing many musical highlights. Enjoy listening to three works by Johann Sebastian Bach, two compositions from the late romanticism by Alsatian Aloys Clausmann and by Jaak-Nikolaas Lemmens, the well-known Belgian ambassador of Bach's organ tradition. „Clair de lune“ by French master Louis Vierne, who has been organist at Notre-Dame in Paris for many years, makes for a very special moment during the programme.
